# Sweetener / Sugar Replacement

## STEVIA DE

Stevia is a sweetener and sugar substitute extracted from the leaves of the plant species *Stevia rebaudiana*

The active compounds are steviol glycosides (mainly stevioside and rebaudioside), which have 30 to 150 times the sweetness of sugar, are heat-stable, pH-stable and not fermentable.

The body does not metabolize the glycosides in stevia and therefore it contains 0 calories like some artificial sweeteners.

INCI Name : Stevia Rebaudiana Leaf Extract  
 Active Ingredients : Stevioside and rebaudiosite  
 Applications : Naturally sweetener , as a food additive and sugar substitute and as a weight loss aid

## HONEY DE

Honey extract provides moisturizing, revitalizing and anti-bacterial effects for skin care and hair care formulations.

It is said that honey smoothes the skin. It can increase capillary blood circulation and ameliorates the appearance of skin.

INCI Name : Honey Extract  
 Active Ingredients : Fructose  
 Applications : Anti bacterial, anti septic, having a high emollient, natural nutrition, etc

## ROCK SUGAR DE

Rock sugar is large sugar crystals that come in jagged rock-shaped of varying sizes. The sugar is made out of a solution of sugar and water through crystallization.

It can be made of different types of sugar such as regular white granulated sugar, brown sugar, sugar cane etc.

It is the preferred choice of sugar for flavoring teas and soups because it is less sweet than regular white granulated sugar.

With a clear taste, the sugar melds beautifully without overwhelming the flavor of the drink.

INCI Name : Sucrose  
 Active Ingredients : Sucrose  
 Applications : Healthy Drinks, Beverages , etc

# High Protein Ingredients

## ALMOND MILK DE

Almond milk is a plant milk manufactured from almonds with a creamy texture and nutty flavor. It contains neither cholesterol nor lactose, and is often consumed by those who are lactose-intolerant and others who wish to avoid dairy products, including vegans. It can also be made at home using a blender, almonds and water. This dairy product is rich in vitamins, protein and mineral in it.

INCI Name : Prunus Dulcis Seed Extract  
 Active Ingredients : Catechin, Kaempferol, Epicatechin  
 Applications : RTD beverages, nutritional supplements, dairy drinks and desserts, etc

## EDAMAMAE DE

Edamame is young soy beans that are harvested before they have ripened or hardened. They are naturally gluten-free and low in calories, they contain no cholesterol, and they are an excellent source of protein, iron, and calcium. They can be an important source of protein for those who follow a plant-based diet.

INCI Name : Glycine max. Seed Extract  
 Active Ingredients : Lecithin  
 Applications : RTD beverages, dairy products (soy milk, margarine, soy ice cream, soy yoghurt, soy nuts, soy cheese, diet food, soy sauce, soy cream cheese, etc)

## SOYA DE

Soybeans are high in protein, and are also a decent source of both carbs and fat. They are a rich source of various vitamins, minerals and beneficial plant compounds, such as isoflavones. For this reason, soybeans may reduce the risk of breast and prostate cancer, and alleviate the symptoms of menopause. Populations with diets high in soy protein and low in animal protein have lower risks of prostate and breast cancers than other populations.

INCI Name : Glycine Soja (Soybean) Seed Extract Active  
 Active Ingredients : Genistein and Daidzein  
 Applications : RTD beverages, dairy products (soy milk, margarine, soy ice cream, soy yoghurt, soy nuts, soy cheese, diet food, soy sauce, soy cream cheese, etc)

## GOAT'S MILK DE

Goat milk is a rich source of calcium and these tablets are ideal for people who are allergic to regular cow's milk. It's lower in lactose and less potentially allergenic than cow's milk, the fat it contains is easier to digest, and it is higher in several important nutrients.

INCI Name : Caprae Lac Extract  
 Active Ingredients : Riboflavin, Caprylic acid  
 Applications : RTD beverages, dairy drinks and desserts, cheese, ice cream, infant and follow-on formula, nutritional supplements, etc
